## TABLE OF CONTENTS

**Chapter** **Page**

**Acknowledgments** ..... **I**

**Executive Summary** ..... **III**

Overview of the Telecommunications and Information Infrastructure Assistance Program
Study Overview
Summary of Findings
Characteristics of Grant Recipients and Project Partners
Implementation of Demonstration and Access Projects
Accomplishments and Impacts of Demonstration and Access Projects
Sustainability and Project Expansion
Summary and Conclusions

**I. Introduction** ..... **1**

Overview of the Telecommunications and Information Infrastructure Assistance Program
Program Purpose and Structure
Program Changes
Study Overview
Characteristics of 1994 and 1995 TIIAP Projects
Study Methodology
Structure of the Report

**II. Characteristics of Grant Recipients and Project Partners** ..... **9**

Key Findings
Grant Recipient Organizations
Types of Organizations Receiving TIIAP Awards
Partner Organizations
Types of Organizations Serving as Project Partners
Contributions of Partner Organizations
Selecting and Working with Partners

**III. Implementation of Demonstration and Access Projects** ..... **19**

Key Findings
Community Improvement Goals and Anticipated Long-Term Outcomes
Community Improvement Goal
Long-Term Outcomes
Barriers to Access
Implementation Activities
Activities Conducted by Individual Application Areas
Activities Conducted Across All Application Areas
Activities to Evaluate Project Success
Factors that Influenced the Extent of Implementation

**TABLE OF CONTENTS**
**(continued)**

**Chapter** **Page**

**IV. Accomplishments and Impacts of Demonstration and Access Projects..... 39**

Key Findings
Respondents' Perceptions of Their Primary Outcomes
Community Improvement Impacts
- Impacts Among Community Networking and Public Services Projects
- Impacts Among ECLL Projects
- Impacts Among Health Projects
- Impacts Among Public Safety Projects

Impacts on End Users and Other Community Members
- Disadvantaged and Underserved Populations Affected by TIIAP Projects
- Geographic Regions Affected by TIIAP Projects
- Magnitude of Impact
- Types of Community Segments Affected by TIIAP Projects

Impacts on Grant Recipients and Project Partners
- Relationships Between Grant Recipients and Partners

Project Replication and Dissemination
- Replication and Innovation
- Dissemination

Impact of TIIAP Support

**V. Sustainability and Project Expansion..... 63**

Key Findings
Status of Projects at the Time of the Mail Survey
- Demonstration and Access Projects
- Planning Projects
- Securing Ongoing Funding

Project Expansions and Spin-Offs
- Project Expansions that Serve Additional End Users
- Spin-Off Activities that Provide Additional Services

**VI. Lessons Learned..... 73**

Developing a Human Network
Developing a Telecommunications Network
- Financial Considerations
- Technical Considerations
- Training Considerations

Sustaining Projects Beyond the End of the Grant Period
Developing Specialized Projects
- Considerations for Telemedicine Projects
- Considerations for K-12 Education Projects
- Considerations for Distance Learning Networks

**VII. Summary and Conclusions..... 83**

**TABLE OF CONTENTS**
**(continued)**

## LIST OF APPENDICES

**Appendix**

**A TIIAP Case Study Methodology and Sites**

**B Mail Survey for Demonstration and Access Projects**

**C Mail Survey for Planning Projects**

## LIST OF TABLES

**Table** **Page**

**Chapter I**

1-1 Numbers of TIIAP awards, by application area: 1994 and 1995 ..... 6

1-2 Mean TIIAP award amount, by application area: 1994 and 1995..... 6

1-3 Numbers of survey respondents, by application area: 1994 and 1995 grants..... 7

1-4 Mean TIIAP award amounts among survey respondents, by application area: 1994 and 1995 grants ..... 7

**Chapter II**

2-1 Organizational representation among grant recipients, by application area: 1994 and 1995 demonstration and access grants ..... 11

2-2 Percentage of TIIAP projects reporting partnerships with community organizations and total number of partners involved: 1994 and 1995 demonstration and access grants 14

2-3 Organizational representation among grant recipients and project partners: 1994 and 1995 planning grants..... 15

2-4 Percentage of partner organizations providing contributions to the project, by organization type: 1994 and 1995 demonstration and access grants..... 16

**Chapter III**

3-1 Percentage of TIIAP projects addressing barriers to access, by application area: 1994 and 1995 demonstration and access grants ..... 24

3-2 Number and percentage of TIIAP projects that developed an evaluation plan, by application area: 1994 and 1995 demonstration and access grants ..... 33

3-3 Percentage of TIIAP projects that accomplished key evaluation steps: 1994 and 1995 demonstration and access grants that developed an evaluation plan..... 34

**Chapter IV**

4-1 Percentage of TIIAP projects benefiting underserved community groups as end users and indirect beneficiaries: 1994 and 1995 demonstration and access grants ..... 48

4-2 Percentage of TIIAP projects benefiting key community segments, by application area: 1994 and 1995 demonstration and access grants ..... 51

4-3 Number and percentage of TIIAP projects considered worthy of replication, by application area: 1994 and 1995 demonstration and access grants ..... 56

4-4 Projects' ratings of innovation: 1994 and 1995 demonstration and access grants ..... 56

4-5 Number of organizations receiving project information through key dissemination channels: 1994 and 1995 demonstration and access grants ..... 57

**Chapter V**

5-1 Number of TIIAP projects reporting impediments to full implementation: 1994 and 1995 planning grants that have not been fully implemented ..... 66

5-2 Percentage of TIIAP projects that secured ongoing funding for operating expenses: 1994 and 1995 demonstration and access grants ..... 67

## LIST OF FIGURES

**Figure** **Page**

**Chapter II**

2-1 Distribution of 1994 and 1995 demonstration and access grants, by type of organization ..... 10

2-2 Distribution of 1994 and 1995 planning grants, by type of organization ..... 13

**Chapter III**

3-1 Types of community improvement goals established by TIIAP projects: 1994 and 1995 demonstration and access grants ..... 21

3-2 Number of projects that proposed implementation strategies supporting community development goals and extent of implementation: 1994 and 1995 demonstration and access grants in community networking and in public services ..... 27

3-3 Number of projects that proposed implementation strategies supporting education goals and extent of implementation: 1994 and 1995 demonstration and access grants in ECLL ..... 28

3-4 Number of projects that proposed implementation strategies supporting health goals and extent of implementation: 1994 and 1995 demonstration and access grants in health ..... 30

3-5 Number of projects that proposed implementation strategies promoting access and extent of implementation: 1994 and 1995 demonstration and access grants ..... 31

3-6 Number of projects that proposed implementation strategies supporting training and extent of implementation: 1994 and 1995 demonstration and access grants ..... 31

3-7 Number of projects that proposed implementation strategies involving technology and extent of implementation: 1994 and 1995 demonstration and access grants ..... 32

3-8 Extent to which evaluation plans have been implemented: 1994 and 1995 demonstration and access grants that developed evaluation plans ..... 33

3-9 Contents of data collected to evaluate TIIAP projects: 1994 and 1995 demonstration and access grants' evaluations ..... 34

3-10 Data collection methods used to evaluate TIIAP projects: 1994 and 1995 demonstration and access grants' evaluations ..... 34

3-11 Percentage of TIIAP projects reporting implementation obstacles: 1994 and 1995 demonstration and access grants ..... 35

**Chapter IV**

4-1 Extent of impact for community improvement goals: 1994 and 1995 demonstration and access grants in community networking and in public services ..... 43

4-2 Extent of impact for community improvement goals: 1994 and 1995 demonstration and access grants in ECLL ..... 45

4-3 Extent of impact for community improvement goals: 1994 and 1995 demonstration and access grants in health ..... 47

4-4 Percentage of project directors who believe their TIIAP projects would have been implemented in the absence of Federal funding: 1994 and 1995 demonstration and access grants ..... 60

**Chapter V**

5-1 Current status of TIIAP projects: 1994 and 1995 demonstration and access grants ..... 64

5-2 Number of TIIAP projects reporting impediments to full operation: 1994 and 1995 demonstration and access grants no longer operating at full capacity ..... 65

5-3 Current status of telecommunications plans developed by TIIAP projects: 1994 and 1995 planning grants ..... 65

## LIST OF EXHIBITS

**Exihibit** **Page**

**Chapter II**

2-1 Example of a cross-sector grant recipient ..... 12

2-2 Example of a partner providing technical expertise ..... 17

**Chapter III**

3-1 Example of community improvement goal to improve training and learning opportunities ..... 22

3-2 Example of community improvement goal to serve long-term telecommunications needs ..... 23

3-3 Example of a project addressing technological barriers ..... 25

3-4 Example of a project addressing geographical barriers ..... 25

3-5 Example of a project addressing economic barriers ..... 26

3-6 Example of establishing a network to provide educational services ..... 28

3-7 Example of a health-related project that exceeded expectations ..... 29

3-8 Example of a project that was terminated due to technological obsolescence ..... 38

**Chapter IV**

4-1 Example of a project that changed the ways people communicate ..... 42

4-2 Example of a project that changed the ways information is accessed and transmitted ..... 44

4-3 Example of a project that changed the ways benefits are delivered ..... 45

4-4 Example of a project serving geographically isolated communities ..... 48

4-5 Example of a project serving people living in poverty ..... 49

4-6 Example of a project serving tribal communities ..... 50

4-7 Example of a project serving Mexican-border communities ..... 52

4-8 Example of a project that benefited an entire community ..... 53

4-9 Example of a grant recipient that gained increased knowledge about its field as a result of the TIIAP grant ..... 54

4-10 Example of a project's partners benefiting from their TIIAP grant experiences ..... 55

4-11 Example of a project whose staff benefit from their work ..... 58

4-12 Example of a project with beneficial partnerships ..... 59

4-13 Example of a partnership impacting the community ..... 60

4-14 Example of a project worthy of replication ..... 61

4-15 Example of a project that expanded its services as a result of TIIAP funding ..... 61

**Chapter V**

5-1 Example of a project that is serving an expanded role ..... 66

5-2 Example of a project providing a limited range of services ..... 67

5-3 Example of a project that ceased operations due to technological obsolescence ..... 68

5-4 Example of a project collecting user fees to fund ongoing activities ..... 69

5-5 Example of a project that used its TIIAP grant to serve additional end users ..... 70
5-6 Example of a project that leveraged funding after the grant period ..... 71
